CONSOLIDATED EXCHANGE.

A rallying movement in the last hour of yesterday's Consolidated Stock Exchange session carried prices up rapidly, and when the session had ended the majority of stocks had scored sharp gains over the closing prices of Monday. The easy tone of the money market was the fundamental factor in bringing about covering by the short interests. The strength of the rail shares was one of the notable incidents of the last trading. The steel issues were under pressure during the greater part of the day, and while Cruchbe Steel and Republic Iron & Steel closed well above their lowest prices, they were among the few issues that failed to close the day with a net gain.

Crucible Steel sold down from 197 to 1915, and closed at 196, while Republic Iron & Steel, after failing from 101 to 984s. railied to 100%. United States Steel rallied 25, to 887s, and Bethlehem Steel B 1% to 86½; Mexican Petroleum
